IMAGERY INFORMATION REPORT

SA-9 ACTIVITY AT ODESSA SAM SITE A20-3, USSR (S)

(S/WNINTEL) Two SA-9 TELs were seen in revetted launch positions at the Odessa SAM Site A20-3, USSR, on imagery of 1 May 1977. This was the first identification of SA-9 TELs deployed with an operational SA-3 site. No SA-9 missiles were on either TEL, and probable cabling was observed leading from the site control bunker to one of the SA-9 TELs. Two SA-3 four-rail launchers, each loaded with four missiles, occupied the other two launch positions at this site.

(S) Odessa SAM Site A20-3 is 9.3 nautical miles south of Odessa on the Black Sea Coast.
